Tools: Git, GitHub, Visual Studio Code, XAMPP, Jupyter Notebook, Google Colab, Power BI, Excel

Languages Spoken: English, Hindi, Gujarati

WORK EXPERIENCE

Web Developer Intern, Parul University *Feb 2026 – Present*

Vadodara, Gujarat

- Develop responsive web interfaces using PHP, HTML, CSS and JavaScript as part of a university web development team.
- Implement server-side logic to extend site functionality and connect front-end pages to back-end features.
- Learn and apply the full website build process, from interface design to integration and delivery of a professional project.

PROJECTS

FARSIGHT – Agentic AI Railway Intelligence Platform *July 2026*

Next.js, FastAPI, Multi-Agent AI | Winner, HackVerse x Microsoft Hackathon 2026

- Designed and built an agentic AI platform for railway operations with autonomous multi-agent simulation and a digital twin visualization.
- Implemented AI-powered congestion prediction, real-time risk analysis and proactive intervention recommendations.

HealthMate.AI – Post-Hospital Recovery Assistant *April 2025*

ElevenLabs, Bolt Pro, Algorand/IPFS | World's Largest Bolt Hackathon

- Built an AI-powered recovery assistant that tracks patient progress and generates personalized health recommendations.
- Integrated voice AI and decentralized storage to enable smart caregiver communication workflows.

IBMC Consultancy Website – Parul Consultancy Services *November 2024*

PHP, MySQL, HTML, CSS, JavaScript

- Developed a dynamic, responsive consultancy website with a PHP and MySQL back end.
- Built service listings, client testimonials, contact forms and FAQs, and applied SEO optimization to improve visibility and performance.

HACKATHONS & ACHIEVEMENTS

Winner, HackVerse x Microsoft Hackathon 2026 *July 2026*

- Won with FARSIGHT, an agentic AI railway intelligence platform.

Smart India Hackathon 2025 – Internal Round (Top 5 of 80+ teams) *November 2025*

- Selected for official university nomination at Vadodara Hackathon 6.0; contributed to an AI-powered cultural heritage platform with 360° virtual tours, multilingual audio guides and a 3D monastery experience.

Team Leader, National-Level AI/ML Hackathon 2.0 *March 2025*

- Led a team to build Healthcare Buddy, an AI healthcare assistant with ML-based insights, in a 36-hour hackathon.

Shortlisted by Outlier, CodeCircuit Hackathon *March 2025*

- Built an interactive Periodic Table web app; shortlisted for freelance front-end opportunities.

EDUCATION

Master of Computer Applications (MCA) *July 2025 – Present*
Parul University

Bachelor of Computer Applications (BCA) *July 2022 – April 2025*
Parul University

Higher Secondary Certificate (HSC) *March 2022*
Don Bosco High School
